01	23/09/2020	Initial Installation Guide created
02	07/03/2021	Legal notice has been updated. Section 3.1 Section about IIS & .NET Framework Configuration about Windows 7 has been removed and remaining sections have been renumbered. Section 4 Some steps and screenshots about Rainbow CTI & Media bridge installation have been removed. Section 6 Screenshot has been updated.
03	05/05/2021	Section 4 Screenshots have been added. Section 6 Screenshot has been added. Information about application startup has been updated. Screenshot has been updated.

# 2 Introduction

Rainbow CTI & Media Bridge works with a number of telephone systems (PBXs). This document describes the installation of Rainbow CTI and Media Bridge Asterisk.

Rainbow CTI & Media Bridge is installed on a local machine in customer premises. It connects with Rainbow Server to retrieve the list extensions and interacts with third-party telephone systems to monitor those extensions. The activity and VOIP of those telephone extensions is sent to Rainbow PCG for further usage in Rainbow User application.

This document will take you step by step through the installation process. Everything is explained in detail to get hold of the understanding of the solutions architecture.

Note: Red Boxes and Arrows indicate the functional areas on every screen or window.

## 3 Pre Requisites

Following configurations have to be made in the IIS configurations as pre-requisites on the machine before proceeding with Rainbow CTI & Media Bridge installation.

Following configurations have to be done for all applicable version of Windows i.e. Windows 10 and Windows Server 2012, 2016 & 2019.

**IMPORTANT:** When installing the Rainbow CTI & Media Bridge, you must be logged in as a Local Administrator. Failing to do this may prevent that application from being installed correctly.

### 3.1 IIS & .NET Framework Configurations for Windows 10

Please perform following configurations of IIS & .NET Framework on a machine that is operating on Windows 10 OS prior to installation of Rainbow Connector on it.

1. Click on Start Icon 🗄 and open Control Panel as displayed below:

2. Select Programs and Features as highlighted below:

Alcatel·Lucent 🅢

→ ✓ ↑ 🖾 > Control Panel >	All Control Panel Items >			5 V
djust your computer's settings				View by: Large icons
Administrative Tools	AutoPlay	Backup and Restore (Windows 7)	ItLocker Drive Encryption	🛐 Color Management
Credential Manager	Date and Time	Default Programs	Device Manager	Devices and Printers
Ease of Access Center	File Explorer Options		Flash Player (32-bit)	Fonts
lndexing Options	Intel(R) Graphics and Media	Internet Options	Keyboard	Mail (Microsoft Outlook 2016)
Mouse	Network and Sharing Center	Phone and Modem	🎲 Power Options	Programs and Features
Recovery	Region	RemoteApp and Desktop Connections	Y Security and Maintenance	Sound
Speech Recognition	Storage Spaces	Sync Center	System	Taskbar and Navigation
Iroubleshooting	용 User Accounts	Windows Defender Firewall	iindows Mobility Center	Work Folders

3. Click on Turn Windows features on or off option in the left hand menu as highlighted below:

0	Programs and Features		
÷	> -> 🛧 🖬 > Control 🛛	Panel > All Control Panel Items > Programs and Feature	25
	Control Panel Home	Uninstall or change a program	
_	View installed updates	To uninstall a program, select it from the list and th	nen cli
ę	Turn Windows features on or off	Organize 🔻	
	Install a program from the network	Name	1
		😕 Adobe Acrobat Reader DC	
		🛃 Advanced IP Scanner 2.5	1
		AnyDesk	1
		Bitvise SSH Client 8.44 (remove only)	1
		Sisco IP Communicator	1

4. You need to turn on a Windows feature by checking the boxes next to those features. Expand .NET Framework 3.5 (includes .NET 2.0 and 3.0) by clicking on ⊞ icon next to it as displayed below:

5. Check the boxes next to both options displayed below .NET Framework 3.5 (includes .NET 2.0 and 3.0) as shown:

🔄 Windows Features —	o x	
Turn Windows features on or off	?	
To turn a feature on, select its check box. To turn a feature off, clear its chec filled box means that only part of the feature is turned on.	ck box. A

ОК	Cancel	

6. Expand Internet Information Services (IIS) as displayed below:

7. From the expanded options displayed expand **Web Management Tools.** Now check the boxes next to **IIS Management Console, IIS Management Scripts and Tools** and **IIS Management Service** options as shown below:

8. Expand IIS 6 Management Compatibility and check all the boxes next to the features listed under IIS 6 Management Compatibility as shown below:

9. Close expanded menu of **Web Management Tools** by clicking on the  $\Box$  icon displayed next to it and expand **Application Development Features** option. Check all the boxes next to the features listed in the menu except for **CGI** and **WebSocket Protocol** as shown below:

10. Now expand **Common HTTP Features** option. Check all the boxes next to the features listed in the menu except for **HTTP Redirection** and **WebDAV Publishing** as shown below:

11. Now expand Health and Diagnostics option. Following options are displayed:

Check the boxes next to HTTP Logging and Request Monitor options as shown below:

12. Now expand **Performance Features** option. Check the box next to **Static Content Compression** option as shown below:

🕎 Windows Features	_		×
Turn Windows features on or off			?

34. Press OK and close the Internet Information Services (IIS) Manager and Administrative Tools window.

Please restart your computer after you have made the above mentioned configurations so that the changes can be applied.

### 3.2 IIS & .NET Framework Configurations for Windows Server 2012, 2016 & 2019

Please perform following configurations of IIS & .NET Framework on a machine that is operating on Windows Server 2012, 2016 or 2019 OS prior to installation of Rainbow Connector on it.

1. Click on the Windows button by dragging the cursor to the bottom right corner. This opens the following screen:

2. Go to search bar and type **Control Panel** as displayed below:

3. Click on **Programs** option that is highlighted below:

Alcatel·Lucent

4. Click on Turn Windows features on or off as highlighted below:

Following screen is displayed when you click on Turn Windows features on or off:

21. Once you click on Install, screen with installation progress bar will be displayed:

If you are installing Rainbow CTI & Media Bridge on Windows Server 2019 and face an error while performing the above step, then following steps have to be performed to resolve this issue:

• Insert the Windows installation media in the form of either a CD or through a bootable disc format.

- Launch Command Prompt. You can employ multiple options to launch a command prompt, though the simplest ones would be to type in cmd in the Windows Search field.
- Type in the following command in Command Prompt interface

Dism /online /enable-feature /featurename:NetFX3 /All /Source:[cd drive]:\sources\sxs /LimitAccess

**IMPORTANT!!** Make sure that in the highlighted portion, you enter the drive name that is associated with your CD-ROM/bootable device.

Once you have performed these actions, start performing the pre-requisite IIS & .NET framework configurations on Windows Server 2019 from step 1.

22. Once installation is completed, click on **Close** button as highlighted below:

## 4 Rainbow CTI & Media Bridge Installation

### **IMPORTANT!!** Windows Defender must be turned off during installation.

1. All the above listed configurations must be made before you proceed to this section. Double click the Rainbow CTI & Media Bridge.exe to start the installation. It is important that you run the setup as administrator as highlighted below:

2. Your installation will begin by extraction of files as shown below:

3. You will be prompted to install Microsoft .NET Framework 4.6.2:

<b>,</b>	Microsoft	.NET 2015	_ 🗆 X
	NET Framework 4.6.2 Setup Please accept the license terms to continu	е.	.NET
	MICROSOFT SOFTWARE SUPPLE	MENTAL LICENSE TERMS	s ^
	.NET FRAMEWORK AND ASSOCIA		S FOR
Microsoft Corporation (or based on where you live, one of its affiliates) licenses this supplement to you. If you are licensed to use Microsoft Windows operating system software (the "software"), you may use this supplement. You may not use it if you do not have a

14. Your application has been successfully installed when you see this screen. Click **Finish** button, as shown below.

Screenshot - Installation Complete Window

#### Now Rainbow CTI & Media Bridge has been successfully installed in your system.

Once installation has been completed, you need to provide necessary permissions to the user for the installation path. So go to the default installation path as mentioned below:

#### C:\Program Files (x86)\Alcatel-Lucent Enterprise

If you have provided a different installation path at the time of installation then go that particular installation path.

Once you have accessed the above path, select the **Rainbow CTI and Media Bridge** folder and right click on it. Go to **Properties** option as highlighted below:

Click on **Security** tab and click on **Edit** button to change permissions.
